Caritas Tajikistan owns a new website

As part of realization of its communication strategy CT launched its new website (www.caritas.tj). This informative site responds to the current needs of organization and will be updated on bimonthly basis. Appearance of the site also driven by need to publish financial reports annually, which demanded by upcoming regulation of government. In past the organization had a free hosted site (in www.wix.com) but this practice turns out to have its limitations.

Caritas Central Asia sub-regional event

CT representatives (Director and accountant) attended a capacity building workshop organized by Caritas Asia (CA) for this new sub-region, Central Asia. The workshop, which held on March 18-19 in Bangkok addressed needs of Caritas / church organizations in Central Asia on implementation of CI MS. This is first specially tailored CI MS training for this group, covering Caritas Leadership and Management standards. Knowledge and understanding developing throughout the workshop will play important role in development of these organizations.

Resuming social work with youth

CT is happy to report on the resuming social work with youth. This is occurring in frame of the project "Preparation for adulthood – supervision for success"-2. From 2016 the organization addressing needs of youth orphans in the country. The program is realized with support of Caritas Germany office in Tajikistan and realized with the LNGO Zumrad. This is a social project with unique concept developed thanks to the combined efforts of the partners. The project builds on the idea of mutual cooperation and support between two groups: seniors and orphan adolescents. In particular, the project targets orphans from boarding schools in their important stage of their life – preparation to adulthood, and seniors target group of former Caritas projects. Orphans through activities of the project receive support, life skills training and guidance from seniors-volunteers to be prepared for independent life. At the same time seniors receive indispensable moral satisfaction from interaction with youth. It is the second project and has planned one year life span.
