Supporting homeless in Dushanbe

Since December 2019 CT is running its 3rd project on reintegration of homeless in Dushanbe, capital city. The project opened on the basis of facilities created with support of CRS in 2014 under such social projects and since then it has been several project benefited from these facilities. The project provides social-reintegrational services like psychological counseling, legal counseling and support, referral service, hair cut and douche/laundry service. In time of epidemic (when strict isolation was canceled) the project started distribution of hand antiseptic and masks to beneficiaries. For local homeless it is only spot with these specific services. The project has cooperation with ministry of internal affairs coordinating work with this group. *Project funded by Caritas Italy >>>>>*

Asia Regional Webinar on CI Safeguarding Manual

Caritas Tajikistan's representative has attended online webinar on CI Safeguarding manual organized by Caritas Asia. The webinar was organized using Zoom service platform (www.zoom.us). 77 participants from 22 MOs participated in the webinar. Since it is new way of distant training there were technical difficulties with joining the online training. The webinar was facilitated experts of the field nominated by CI. The content was opened and well delivered. This online learning has its advantages and limitations but for this period of the travel limitations it is, for sure, the best one. It was a really great training! And proper use of content and way of conveying it made the webinar even more meaningful and interactive. Aside from the direct content benefit there was good exercise of using online technologies for learning in organization. This training will give a new impulse to management in further implementing Safeguarding in the organization.

Office work restrictions due to COVID-19 epidemic

Tajikistan as remote country got first wave of coronavirus attack late at the end of April month Pick of COVID-19 epidemic. After declaring for long that country without a single case of the coronavirus, infection in the country went from zero to hundreds a few days at the begging of May. Such, the May month our country faced fast outbreak of epidemic and the government introduced major restriction isolation measures. Management of Caritas Tajikistan (CT) let office staff to leaves, some worked from home and some were coming to the office with much precaution. >>>>>
